## About

Luke has over 15 years experience producing TV Commercials, Web Content, Music Videos, Documentary Shorts, Events, and Fashion & Beauty Print Projects around the world. With a uniquely collaborative approach he brings to life the visions of Directors and Agencies. With an understanding the minutiae of production, both on the technical side as well as the creative intangibles, he is an invaluable partner in creative problem-solving. Preferring open communication and collaboration over strict role definition, he brings together the various voices and personalities involved in each project, facilitating a team approach, focused on a common goal to execute the most dynamic, engaging and powerful end product. And hopefully we have a lot of fun along the way!
